MSRP:

The line between the electric guitar and acoustic guitar is blurring. Here's an instrument that makes the distinction even finer.

The new Elite TX is a new twist on one of Ovation's most popular models. A gloss black top finish and inlaid Spalted Maple epaulet really help set off this great looking guitar. With its fast playing features like a low-profile Maple neck and low action settings, this guitar makes the transition from electric to acoustic seem almost transparent.

Like all Elite TX models, this new model provides maximum performance and unique styling. Ovation's famous lightweight/high strength bracing under the solid spruce top gives the soundboard tremendous power. The pickup is specifically designed to give players exceptional balance note-to-note, even in alternative tunings.
