TRAKTOR DUO 2

Claim:

POWER AND SIMPLICITY

Box's back:**Get Your Mix On**

TRAKTOR DUO 2 makes it simpler to unleash your creativity, whether you mix at home or rock the dance floor. With TRAKTOR 2 Technology Inside, you can use the same software that many of the world's top DJs rely upon. Within moments, you'll be mixing on two decks and easily adding loops using the new Sample Decks. Amazing-looking software and visual cues like multi-colored waveforms reveal every detail of your music and help you drop stunning mixes.

Keep It Simple

Any track on your computer or in your iTunes® library is ready for mixing – find the right song instantly with the Crate Flick cover art search. With TRAKTOR's tried and tested beat detection, your mix will always be in time, giving you the foundation to get creative on the effects and EQs. Control the crossfader, EQs, and filters of the built-in mixer and get full control over your mix – and the crowd.

Create Your Style

TRAKTOR isn't just limited to straight-forward DJing. The software also includes amazing loops you can effortlessly drop into your sets like techno, house, dubstep, trance and more. You can also create your own loops from the playing tracks, remixing and editing on the fly via the new Sample Decks. Six of the most popular and impressive tempo-synced DJ effects and one filter per deck complete the sonic weaponry, giving you all the tools you need to create your own unique style.

Ready To Roll

It's a breeze to set up with TRAKTOR DUO 2. Use any combination of DJ controllers like TRAKTOR KONTROL X1 or your keyboard and mouse to control the software. New Auto Detection makes connecting your NI audio interface easy. You can choose the layout to suit your style, and save the results for next time. TRAKTOR's hot key shortcuts are also fully customizable to suit your individual needs.

KEY FEATURES

- ▶ Instantly usable DJ software with 2 decks, intuitive layout and Sample Decks
- ▶ Hi-res TruWave colored waveforms for visual mixing help
- ▶ Automatic beat detection and sync functions for perfect mixing every time

- ▶ New Sample Decks to edit and remix tracks live, plus included loop and sample content
- ▶ 6 studio-quality DJ performance effects, syncing to track tempo – add your own color to the mix
- ▶ Powerful, easy looping and cueing functions – set up precise auto loops on the fly
- ▶ Full-featured mixer with EQs, filters and crossfader
- ▶ Crate Flick cover art browsing and full iTunes® integration make finding tracks a cinch
- ▶ Plug & play with all TRAKTOR hardware, ships with mappings for most relevant DJ controllers
- ▶ Record your mix using the integrated audio recorder

Flap copy:

POWER AND SIMPLICITY

TRAKTOR DUO 2 is built on vast experience completely and a thorough understanding of DJ needs – resulting in an intuitive, creative and addictive DJ software.

Simple, Practical Interface

Designed to stand out in any club environment, TRAKTOR DUO 2's user interface is also incredibly easy on the eye. The new TruWave hi-res colored waveforms add a third dimension to your mix and with the seamless zoom, you can now “dive in” to your music and set up super-precise cue points and Beat Grids. Following the layout and workflow of industry-standard DJ gear, the software makes you feel at home right from the start.

TruWave

The new TruWave waveforms aren't just easier to read, they offer a whole new way to interact with your mix. The frequency-specific waveforms visually highlight the different elements of your tracks, so you see where kicks, bass, hi-hats and snares come in. Choose from the four different color schemes to get your preferred view and easily keep an eye on your track's arrangement via the stripe overview – revealing every detail at a glance.

Digging In The Crates

Find tracks in seconds with full iTunes® integration, iPod® compatibility and real-time track searching. What's more, Crate Flick cover art browsing lets you browse your track collection by showing you the top portion of each track's cover as you flip through. All metadata for your track collection is fully portable, making it simple to switch between different computers.

Always In Time

TRAKTOR software features precise automatic beat detection and track preparation when you import a track to your library. The advanced sync engine enables the track decks, Sample Decks and performance effects to all follow the current master tempo. This gives you tight mixing and allows you to concentrate on the creative aspects - remix and re-edit tracks live.

Sample Decks

The Sample Decks simplify live sampling and looping in a creative DJ set. Grab your own loops from a running track, use the included loop content or the exclusive scratch sounds. With up to eight loops and one-shot samples at your fingertips, you can instantly remix a track as you perform. Store your favorite loops grabbed from your tracks and build your own loop library to personalize your sets.

Warp Your Sound

TRAKTOR DUO 2 includes all the most-used DJ effects plus TRAKTOR's renowned BeatMasher 2, offering a first-class range of tempo-synced DJ effects. With six in total, DJ favorites like Delay, Reverb, Flanger and Gater are all at hand. A great-sounding filter completes the arsenal. Flexible chaining gives you wide-ranging options and easy access to your favorite effects – the potential for creating your signature sound has never been greater.
