TRAKTOR PRO 2

Claim:

DEFINE YOUR SOUND

Box's back:**The New Pro**

TRAKTOR PRO 2 is the world-renowned, rock-solid 4-deck DJ software that gets you mixing straight out the box. Now with TRAKTOR 2 Technology Inside for enhanced ease-of-use, performance and creativity, this version boasts a new interface with TruWave colored waveforms for a visually rich experience of your music. Simpler than ever to use, TRAKTOR PRO 2 also sees the arrival of the new Sample Decks and Loop Recorder features for ultimate mix creativity.

New Creative Weapons

TRAKTOR's intelligent features now allow for even easier remixing of tracks on the fly. Switch any deck to a Sample Deck and load up to four loops or one-shot samples each – 16 in total. The new Loop Recorder can record loops from mixer channels, master out or audio interface inputs, while four much-requested new effects, including Tape Delay and Bouncer, round out the arsenal to more than 30 performance effects.

Get In The Mix

Crate Flick cover art browsing and full iTunes® and iPod® integration makes finding the right track effortless. TRAKTOR's acclaimed sync concept ensures that your tunes beat-match perfectly so you can focus on the more exciting performance aspects of DJing. TRAKTOR PRO 2's built-in mixer integrates multiple EQ and filter types, giving you full control of the frequency spectrum.

Total Flexibility

Use any combination of MIDI controllers such as TRAKTOR KONTROL X1, or your keyboard and mouse to control the software. The new Auto Detection makes connecting and disconnecting your NI audio interface easy – even while there are tracks playing in TRAKTOR. Assisted by the Setup Wizard with a drop-down menu, just select your interface and it assigns inputs and outputs for you. TRAKTOR PRO 2 is highly customizable with multiple, savable layouts and flexible hot key selection to suit your needs.

KEY FEATURES

- ▶ Professional DJ software with 4 decks and intuitive layout
- ▶ Hi-res TruWave colored waveforms and easy-to-use interface with high contrast for club environments

- ▶ Automatic beat detection and beat-gridding of music files plus intuitive syncing for perfect mixes
- ▶ Brand-new Sample Decks and innovative Loop Recorder to edit and remix tracks live, plus included loop content make it easy to get into the mix
- ▶ Over 30 studio-quality performance effects, including 4 new additions, all capable of syncing to track tempo
- ▶ Advanced looping and cueing functions plus 8 assignable hot cues per track
- ▶ Full-featured 4-channel software mixer with multiple EQ and filter options
- ▶ Powerful track management with Crate Flick cover art browsing and full iTunes® integration
- ▶ Plug & play with all TRAKTOR controllers and audio interfaces, ships with mappings for all relevant DJ controllers
- ▶ Record your mix using the integrated audio recorder

DEFINE YOUR SOUND

TRAKTOR PRO 2 is built on vast experience and a thorough understanding of DJ needs – resulting in an intuitive, creative and addictive DJ software with unequalled pro credentials.

Customizable Interface

Designed for the toughest of club environments, TRAKTOR PRO 2 features a user interface that truly excels in both simplicity and functionality. Incredibly easy on the eye, it also features new TruWave hi-res colored waveforms, giving you a fresh perspective on your mix. Choose from several different layouts to suit your style and situation – from the minimalist Essential View, the Browse Mode, or optimized views such as the four track decks layout for advanced mix routines.

TruWave Technology

The TruWave colored waveforms aren't just easier to read, they offer a whole new dimension to your mix. The frequency-specific track and stripe display highlights the different elements of your tracks, such as kicks, bass, hi-hats and snares – it's now possible to navigate visually without even pre-listening to your track. And with four different color schemes to choose from, you can select the right view for your style. Super-smooth scrolling and waveform zooming makes for tighter cue points and Beat Grids than ever before.

Digging In The Crates

With full iTunes® integration, iPod® compatibility, and real-time track searching, TRAKTOR PRO 2 makes finding and preparing tracks a joy, no matter the size of your track collection. Crate Flick lets you browse your track collection using cover art, showing you the top portion of each track's artwork as you flip through. This even works with file formats that would normally not support artwork such as AIFF or WAV. All metadata for your track collection is fully portable.

Always In Time

TRAKTOR PRO 2 features ultra-precise automatic beat detection and beat-gridding on track import. With tight mixing now a given, you can concentrate on the creative aspects of DJing – such as deconstructing and remixing your tracks live. You can also sync TRAKTOR PRO 2 with Native Instruments' groove production studio MASCHINE and other performance tools.

Sample Decks & Loop Recorder

The Sample Decks and Loop Recorder simplify live sampling and looping as part of a creative DJ set. Grab loops from a running track or use the included loop content. You can also trigger your own one-shot samples or try out the exclusive scratch sounds from the library. With up to four loops per Sample Deck, you can instantly remix a track on the fly. The Loop Recorder lets you record the master output including effects – layer and overdub them on top of you mix. This powerful tool is perfect for stunning build-ups and adding a truly individual element to your set.

Warp Your Sound

TRAKTOR PRO 2 contains a first-class range of tempo-synced DJ effects. With over 30 in total, everything from classic DJ effects to advanced performance tools are at hand. In this version, four breathtaking additions join the team: Tape Delay, Ramp Delay, Bouncer and Auto Bouncer. Flexible routing and chaining give you unparalleled options and easy access to your favorite effects – the potential for creating your signature sound has never been greater.
