

## KIRK HAMMETT FLYING V

A commanding rank of 11th in Rolling Stone's "The 100 Greatest Guitarists of All Time" might be enough for most people. However, you can cross Kirk Hammett off of the list of "most people". Producer, Actor, Student, Father and arguably one of the most influential guitarist to ever fly the "Heavy Metal" banner, Kirk Hammett is one of the most multi-dimensional artists of recent history. Perhaps the most impressive accomplishment in Kirk's long career however is the emphasis he can put on both "long" and "career", especially within the grinding, heartless gears of a genre known for flash-in-the-pan stardom and fleeting fame. But, like any true craft, Heavy Metal has Masters and true Masters stand the test of time. Kirk is inarguably a Master of the Heavy Metal genre.

In celebration of Kirk's amazing career, his influence on generations of guitarists and his ever-evolving approach to the craft of guitar playing, Gibson Custom is pleased to present the Kirk Hammett Flying V. The Kirk Hammett Flying V is a true recreation of Kirk's own 1979 Flying V, which has been his trusted companion throughout his playing career.

Body	1 pc Mahogany
Neck	3 pc Mahogany Neck
