

RESPIRO

DOWNLOAD, INSTALL & ACTIVATION

Your Emeo comes with a Respiro License. Respiro is a software designed to respond to breath pressure, tonguing etc. It offers its unique palette of sounds. It is not designed to emulate the complex characteristics of a saxophone, clarinet etc.

The Respiro version coming with your Emeo contains a set of instruments selected by the EMEO team. You can cross-grade to a more complete version containing +250 instruments.

DOWNLOAD AND INSTALL RESPIRO FOR MAC / WINDOWS

- Download the Respiro installer tool. Ignore the virus scan warning.
- Open your download folder.
- Double click (unzip) the file Respiro_xxxxxEMEO.zip.
- Launch the installer tool and go through the installation steps.

ACTIVATION

- Click **ONCE** on the application icon to start up Respiro.
- The license check window will show-up and search for your EMEO.
- Connect your EMEO via USB-C and wait till Respiro detects the device.
- Enter your EMEO serial number and click the **[ACTIVATE]** button.
- Respiro is now activated. You can start playing your EMEO.
- You might need to restart Respiro in case you get no sound the first time

What to do when your EMEO does not get detected?

- Click button **[REQUEST LICENSE]**.
- A mail will be composed automatically to request a license.
- You should receive within 24 hours a mail with your Respiro License key.
- Copy the received key into the second field of the license Window.
- Click button **[VALIDATE LICENSE]**.
- Respiro will start immediate after validation of your license.
- If no mail is generated then make a copy of the license window and send this to support@imoxplus.com.

INSTALLING THE FREE RESPIRO PLAYER ON IPAD IPHONE

- This free player contains a limited set of instruments and does not require a license key. It is just a basic tool to play Respiro instruments on your iOS device. **DO NOT INSTALL THIS APP ON YOUR MAC (M1 or M2)**
- To install, open the App Store on your iPhone or iPad
- Search for Respiro Wind-Synth and install the Respiro Player.
- Connect your EMEO via Bluetooth or cable
- Launch Respiro Player and start playing.
- You can expand the instruments by using your Mac or Windows Respiro (see manual Respiro for iOS - page 14)
