G5222 ELECTROMATIC AMP:

TONE-FULLY SIMPLE! 5 watts... 2 tubes... 2 inputs... too COOL! "Tone with soul" is how most players describe the Gretsch Electromatic G5222 Amp. Designed by guitarists, this low output, easy-to-record amp is ideally suited for small-room jam sessions and recording projects. Crank the amp's volume and manipulate the guitar's controls for a variety of sounds. Not only does it spank, sparkle and growl, but the visual factor is undeniably Gretsch.
