**GRETSCH®**

**G5120 ELECTROMATIC® HOLLOW BODY, LIMITED EDITION WITH CUSTOM PINSTRIPING:**

Gretsch® and renowned Southern California hot rod graphic artist JimmyC have joined forces to produce a limited quantity of guitars. Using the popular Electromatic® G5120 model as his canvas, JimmyC created an original retro-style design combining thin and broad-stroke pinstriping techniques. Each guitar is personally pinstriped by JimmyC, one at a time, in vibrant enamel colors on top of the original guitar finish. "That's how I pinstripe hot rod cars and motorcycles," JimmyC said. Since the detailed graphics are literally applied by hand, designs may vary, creating a truly custom collectable instrument that's also wallet-friendly.
