224-8206-000	Bassman® TV™ Twelve, 230V EUR	€ 799.00

**BASSMAN® TV™ TWELVE:**

Fender® Bassman® TV™ bass combos carry the DNA of the original Bassman, delivering classic Fender bass tone in a package designed to handle the demands of low bass frequencies. With a unique look that is unmistakably Fender, you are sure to class up any stage and cut through the monotony.

The Bassman TV Twelve offers the unique tone of a 12" bass speaker which provides great low end focus while maintaining high end presence. The warmth of its tube preamp and passive tone stack result in big bass tone coming from a small package. Bring up the gain control for more bite. Engage the deep and bright switches to expand the full range spectrum of your tone.

The Precision Bass® guitar was born in 1951, forever changing music and giving birth to a new kind of musician, the electric bassist. Maximizing this amazing new instrument was the mighty Bassman, the original electric bass amplifier. Since that initial inspiration many new musical chapters have been written. Now it's your turn. Plug into a Bassman TV Twelve and make history.

BASSMAN® TV™ TWELVE
