

'60S PRECISION BASS® FIESTA RED

Product #	Description	UPC	MSRP	MAP	Net
030-3070-540	'60s Precision Bass, Rosewood, Fiesta Red	717669847975			

Back in 1982, the very first Squier by Fender® guitars and basses came ringing out of Asia. Known for their excellent vintage-quality look, feel, sound and construction, those early Squier instruments and their Fender branded counterparts are now highly sought-after collector's items revered by guitar enthusiasts as models of "getting it right" while aiming at value-conscious players.

The Squier Classic Vibe Series reflects that simultaneous commitment to excellence, value and 'vibe'. Mirroring classic Fender designs, the Classic Vibe offering is not intended to be era or vintage correct – but rather imparting the 'vibe' of a classic Fender design. Each with distinctive feature set combinations – all adding up to one classic looking instrument. Great sound, vintage looks, unbeatable value – Classic Vibe!

'60S PRECISION BASS:
 The Classic Vibe '60s Precision Bass® delivers the true P Bass® experience. Big, wooly tones jump out from its traditional split single-coil pickup, loaded with AlNiCo V magnets. The comfort contoured body fits like a glove and looks beautiful in Fiesta Red over its basswood body. Features include a HiMass bridge with brass barrel saddles and a 20 fret vintage tint gloss maple neck with the modern playability of a 9.5" radius and vintage-style frets - you'll have no problem holding down the bottom end & pounding out round thick tones on this monster!

'60S PRECISION BASS® FIESTA RED
