Mayer's super sleek, famous black guitar has been his "go-to" instrument for years. He has been able to rely on it through countless recording sessions and shows, and affectionately refers to it as the "Black1". In collaboration with the artist, we are now offering limited quantities of these special guitars to the world (500 global), as John "implores everyone to make their own trouble on it", beating it up through their own musical experiences. The John Mayer Special Edition Black1 Stratocaster includes similar specs to his existing model (same neck shape, pickups and electronics) with the addition of some further upgraded features like gold hardware and a model-exclusive, super-protective INCASE® gigbag (designed in collaboration with the artist) that can be customized using the included patches and modular accessory compartments.

**John Mayer Special Edition "Black1" Stratocaster® (Continued)**
