**ALEX LIFESON SIGNATURE LES PAUL AXCESS**  
Proudly presented by Gibson Custom

A founding member of Rush, perhaps the most respected progressive rock band of all time, Alex Lifeson has made a significant impact on generations of guitar players since the band's rise to fame in the early 1970's. As a player, Alex has continually pushed past the boundaries of convention while exhibiting a mastery and appreciation for the basic foundations of rock and roll. Alex's demands and expectations of his guitars would be considered over the top to most, so when Alex first discovered the Gibson Les Paul Axxess, he found a near perfect match for his own sonic and performance expectations. If near perfect were enough for Alex, however, he probably wouldn't have become one of the world's most recognized players.

Gibson Custom proudly introduces the new Alex Lifeson Signature Les Paul Axxess. Created through extensive collaboration with Alex, this new model incorporates the Graphtech™ Ghost®-equipped Floyd Rose® licensed tremolo and newly designed output circuitry that offers unprecedented signal routing (via "Regular" output jack or "Life-O-Sound" output jack) and tonal shaping flexibility (via push/pull pots) that takes full use of the guitar's complete pickup arsenal.

The Alex Lifeson Signature Les Paul Axxess will be available in Viceroy Brown and Royal Crimson finishes, both of which were specified and approved by the artist.

- Body 1 Piece Mahogany Back
- Top Figured Maple Top
- Neck 1 Piece Mahogany Neck
- Fingerboard Bound Rosewood Fingerboard
- Inlay Pearloid Trapezoid Inlays
- Finish Viceroy Brown (shown), Royal Crimson
- Tuners Green Key Tuners
