

# 1961 ES-335 V.O.S VINTAGE BURST

The ES-335 1961 brought with it the advent of the Slim Neck Profile era that took the innovative and expressive guitar model to new heights. Staying with the proven quality of the Plain Maple Top, Back and Rim veneer, modifications to the neck profile, and added Cherry finish distinguished the 1961 from its predecessor, while still being offered in Vintage Sunburst as well. Gibson's Custom Memphis recreates the 1961 ES-335 through the dedication to adhere to the detail driven art of handmade instruments. Using Gibson's special V.O.S. [Vintage Original Specs] and identically matching the unique colors, looks, and feels of the 51-year-old instruments, right down to the Spanish Cedar kerfing and beveled Neck Binding to match the classic feel of the guitars of this celebrated era. In fact, all of the dimensions of the Neck are matched to 1961 profile specifications, with Holly wood head veneer, Nylon Nut, and Vintage single line tulip button TonePros tuners. Electronically, the BurstBuckers #1 and #2 pickups running through the characteristic period correct wiring harness with CTS 500K Audio Taper Pots and Sprague Black Beauty capacitors reproduce the tones, textures, and sensations that saturate one of the finest ages of Rock and Roll, Blues, and Jazz music ever.
