### **MIDIMAN is Now Shipping its BiPort 2x4s™ - Dual Platform (Mac and PC) 2 in / 4 out MIDI interface and SMPTE Sync Box.**

Arcadia, CA. Midiman recently released its revolutionary new BiPort 2x4s™ which has the following features:

- ⁂ Cross-Platform: High-speed serial bus connection works with both PC's and Mac's.
- ⁂ Dual function: Acts as a 2 in/ 4 out MIDI interface and a stand alone SMPTE and MIDI Time Code reader/writer/regenerator.
- ⁂ 64 MIDI output channels via four independent MIDI out jacks.
- ⁂ 32 MIDI input channels via two independent MIDI in jacks.
- ⁂ Large deep data buffers ensure full MIDI throughput with no data loss.
- ⁂ Front panel buttons/LEDs allow full SMPTE control even without a computer.
- ⁂ Completely controllable using included remote control PC or Mac software.
- ⁂ Built-in SMPTE Time Code reader/writer/regenerator supports all common MTC formats and SMPTE User Bits.
- ⁂ Mac Thru Switch allows you to activate or bypass the unit - so you can retain your modem or printer connection.
- ⁂ Apple Geo-Port compatible.
- ⁂ Industry standard MME compatible drivers for Windows.
- ⁂ Industry standard OMS compatibility for Mac.

MIDIMAN makes note of BiPort 2x4s' rugged construction and affordable price tag of only \$179.95 msrp. For more information contact: MIDIMAN, 45 East St. Joseph Street, Arcadia, CA91006. Tel: (626) 445-2842, Fax: (626) 445-7564, Internet Email: [info@midiman.net](mailto:info@midiman.net).
